Artifact and Fable

LUNA
lunatextiles.com

Drawing inspiration from ancient civilizations, historical objects and art from the ancient world, the Evoke collection demonstrates that every relic has a captivating story to tell.

Uncovered treasure

Comprising two enchanting textiles, The Evoke Collection is a bouclé collection of two designs which embrace soft silhouettes and rugged structures. Designers have recently been drawn to a warmer, more residential aesthetic which has given rise to our interest in dimensional fabrics. Artifact with Fable are the perfect pairing due to their textured surfaces; a perfect solution for inspiring hospitality interiors.

Artifact

Form and texture are explored through Artifact's large-scale motifs, which depict the intrigue of ancient treasures suspended in time.

Its repeating patterns are inspired by sculptural forms, that over time have become universal nostalgic silhouettes. There's a stillness in the flattened perspective of these forms, creating an interwoven pattern.

This bouclé textile has an elegance in simplicity and beauty in irregularity. Captivated in 8 colors.

Fable

A textile characterised by textural depth and softness, it has a timeless sophistication, which radiates warmth and wellbeing.

Fable is available in a palette of 12 muted sophisticated shades, earthy sandstones, light neutrals, forest greens, autumnal copper accents and deep tones of intense grays, which work in perfect harmony with Artifact.

For inviting interiors

The Evoke collection is designed to work in harmony with other Luna ranges to inspire and add interest to residential, hospitality and contract interiors. High performing, durable, bleach cleanable and PFAS free, this stunning collection is ideal for contemporary, statement pieces and accessories, as well as upholstery.
