Woven from a blend of wool and flax, Main Line Twist is a tweed effect textile with a beautiful, rustic appearance. Multi-tonal yarns create a fabric with impossible-to-define colour detail, rich in warmth and texture.

Detail and depth

Evocative of heritage and homespun in feel, the crafted aesthetic of the fabric comes from the twisting of two natural fibre yarns. Appearing to have been made by hand, these yarns are wrapped around one another to create a single, duo-colour strand.

Incorporated into a masterful weave, the twisted yarns create perfectly balanced shade proportions which intertwine colour with ecru and charcoal, enabling each to shine, yet not overpower.

With the touch of tweed, that most traditional of fabrics, a lightly textured surface is invitingly tactile.

Natural performance

Pure wool and harvested flax are brought together to create a fabric that is designed from nature and made to perform, with inherent flame retardancy and high durability. Bringing an intimate, handmade touch to commercial and residential interiors, Main Line Twist can be used across a range of applications, including seating, panels, and curtains.

Paired, effortlessly

A partner to Main Line Flax, the colour palette of Main Line Twist reflects shades found in this bestselling fabric, creating effortless textile pairings. Olive greens and denim blues are found alongside rusted red and muted neutrals to create a colour selection that is intentionally versatile and, at turns, both contemporary and classic.

At a glance

- A tweed effect fabric with a small-scale pattern
- Designed and coloured to pair with Main Line Flax
- Woven from a wool and flax blend
- Inherently flame retardant
- Available in 15 colourways
